

# Transition Loughborough Showcase Event

**Saturday 26<sup>th</sup> March, 1:30pm-3:30pm, Fearon Hall**

**Cake, coffee and tea provided**

- Do you want to tackle the climate emergency?
- Would you like to be involved in practical projects in your local community?
- Want to meet like-minded people?

Transition Loughborough is a local community group which runs practical, local projects in response to global, environmental problems. Our projects include a community allotment, an annual Potato Day, seed and seedling swaps, Repair Cafes, energy projects and training in reducing carbon footprints.

Come and meet our friendly members. Find out more about all our projects and how you can get involved in them. Bring your own ideas for projects. We'll have stalls showcasing all our work and our members will be on hand to talk. We'll also have hot drinks and cake!

If you're looking for a community group to get involved in post-lockdown, this is the event for you!
